

IN THE PATENT AND TRADEMARK OFFICE

IN THE APPLICATION OF:

FRANK GARCIA JR. et al.

SERIAL NO. 10/701,209

FILED: NOVEMBER 1, 2003

FOR: METHOD AND APPARATUS FOR THE HOOKUP OF
UNMANNED/MANNED ("HUM") MULTIPURPOSE VEHICLES WITH EACH
OTHER

CORRECTION OF INVENTORSHIP UNDER 37 CFR 1.48(a)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Kindly change the inventorship of this application to eliminate John L. Junkins
and John L. Valasek as co-inventors leaving Frank Garcia, Jr. as sole inventor.

REMARKS

In view of the papers filed , it has been found that this non-provisional application,
as filed, through error and without deceptive intent , improperly set forth the inventorship
and accordingly this application has been corrected in compliance with 37 CFR148(a).
The inventorship of this application has been changed by eliminating John L. Junkins and
John L. Valasek as co-inventors. This correction has been made on a finding that John L.
Junkins and John L. Valasek did not contribute to the basic invention but were only
involved with the development of the VisNav system, an optical control system, which,

as pointed out in the specification, is not essential to the invention, and other control systems could be employed.

This application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt and correction of the file jacket and PTO PALM data to reflect the inventorship is corrected.

Respectfully Submitted
